

Mobile allowance Policy

We feel glad to announce that our company is introducing NRS. 300 per month as **Mobile allowance** for employees who wish to use their own personal mobiles for usage of **CRM** and **Mobile App**. We have been always finding ways to **facilitate our team** and we believe this scheme will also solve the issue of mobile in our offices to some extent. Often we receive queries about repair and maintenance while using personal mobile when any fault is detected while in office. Hence to solve all those issues and to facilitate our team, **this scheme** shall be effective from **Chaitra 2074**.

We kindly request all our **BM's** to **assign/dedicate one technical team member** from your branch who shall be responsible for checking the personal mobiles to identify their suitability for official work. Please see below the criteria for eligibility.

Eligibility for this allowance are as follows:

1. Employees of any tenure are eligible for this allowance.
2. Employees who require mobile for their job nature for the purpose of CRM and Mobile App. Requirement will be verified by the employee's BM/Supervisor/HR.

Steps to get registered for this allowance are as follows:

1. If you wish to go on this plan, please talk to your branch HR and fill in the enclosed form .
2. After filling in the form and prior to using personal mobile for official use, the employee must **compulsorily** present their mobile to the member as assigned by BM for assessment if it meets the technical requirement or not.
3. Employees should return their company owned mobile to office within 15 days of using personal mobile at work. Concerned member will then inform HRD regarding allowance provision to the staff.

For any queries regarding this, please contact HRD.
