1. Introduction

WorldLink recognizes the importance of managing the movement of its employees effectively and efficiently. Employee transfers may be necessitated by operational needs, organizational growth, and career development opportunities. This Staff Transfer Policy is designed to ensure a fair and transparent process for staff transfers, provide support for employees during the transition, and optimize business operations.

2. Objective

The primary objective of employee transfers at WorldLink are:

- To facilitate the smooth functioning of the business by deploying resources where they are needed most.
- To provide career development opportunities and exposure to different roles, functions, and locations for our employees.
- To ensure optimal utilization of employee skills and competencies.
- To enhance employee satisfaction and engagement.

3. Scope

This policy applies to employees who have completed at least 6 months of service, demonstrating satisfactory performance. The availability of suitable vacancies and the business needs will also be taken into consideration.

4. Types of Transfers

WorldLink may execute different types of employee transfers, including, but not limited to:

A. Regular Transfers

These transfers may be initiated by the company to meet staffing needs or optimize operations. They can be permanent or temporary.

B. Promotion or Upward Mobility Transfers

These transfers result from an employee's promotion or upward mobility within the organization through Internal Vacancy.

C. Exceptional Transfers

Exclusively for critical circumstances necessitating prompt employee transfer, with a primary focus on severe health emergencies. The company is committed to maintaining a minimal scope for such transfers, reserving them for instances when an employee is facing severe health conditions.

Examples of health conditions (critical illness) warranting Exceptional Transfers include, but are not limited to:

Table: Critical Illness warranting Exceptional Transfers

Major Organ Failure and Transplants: • Major organ transplant • Kidney failure • Liver failure Cardiovascular Conditions: • Aortic surgery (including thoracotomy) • Coronary artery bypass surgery • Heart attack • Heart valve surgery Cancer and Tumors: • Cancer • Benign brain tumor Sensory Impairments: • Blindness • Deafness	Neurological and Life-Threatening Conditions: • Coma • Stroke • Accidental brain damage • Loss of speech • Multiple sclerosis • Chronic lung disease • Paralysis Other Life-Threatening Conditions: • Primary pulmonary hypertension • Third-degree burns • Aplastic anemia • Cardiomyopathy • Bacterial meningitis
--	---

Ineligible health conditions for Exceptional Transfers include, but are not limited to: Diabetes, Hypertension, and other Chronic Conditions with Mild Symptoms.

5. Eligibility

To be eligible for a transfer, an employee must:

- Have completed a minimum of six (6) months in their current position for transfer through Internal Vacancy and regular transfers, except in the case of exceptional transfers.
- Meet the qualifications and requirements of the new role.
- Demonstrate a satisfactory performance record in their current role.

6. Transfer Process

The transfer process (except from Internal Vacancy selection) follows a structured approach:

- Request for Transfer:** A transfer request can be initiated by the employee or recommended by their line manager.
- Review:** The HR department will review the request in terms of eligibility tenure, qualifications & requirements with a concern team and assess its feasibility.
- Approval:** Transfers will be approved by the HOD/RM based on operational needs and organizational objectives.
- Communication:** Employees and their current and succeeding department heads will be informed of the transfer in writing, including the effective date and other relevant details.

Fig: Transfer Process

7. Retention of Benefits

WorldLink is committed to providing necessary support to employees undergoing transfers, including Relocation Allowances and One-Time Setup Costs, Traveling Allowance, and Dearness Allowance (TADA) for short-term official visits.

Transferred employees will retain below benefits and service conditions. Any changes to benefits, compensation, or other terms of employment will be clearly communicated to the employee before the transfer.

A. Relocation Allowance

Table: Relocation Allowance Structure

Positions/Levels	Transfer from KTM valley to outside branches or Transfer between branches outside KTM valley	Transfer from outside branches to KTM valley
RM	Rs. 20,000	Rs. 20,000
BM/ABM/BI/RXO	Rs. 15,000	Rs. 15,000
Supervisor/Sr. Supervisor	Rs. 10,000	Rs. 12,000
Assistant/Sr. Assistant	Rs. 8,000	Rs. 10,000

- Transferred personnel as required by the company or through internal vacancies compelled to stay on rent away from their initially assigned branch will be eligible for relocation allowance on their monthly salary (subject to tax deduction). The allowance will be determined based on their respective positions/levels and the specified destination locations outlined in the provided *Table: Relocation Allowance Structure*. Proof of rent stay

documentations (rental agreement/receipts, letter from landlord, bank statement, etc.) that verifies the individual's rental arrangement is mandatory.

- HRD/RHO will conduct a thorough review and verification on a case-by-case basis, considering the specific location within their respective locations and Regions.
- Approval from the Regional Manager (RM) is required for relocation allowances related to transfers at branches located beyond the KTM Valley or across different Regions. This approval is granted exclusively when the one-way commute distance exceeds 25 kilometers in hilly areas and 35 kilometers in normal locations. The RM has the authority to make decisions and approve relocation allowances, considering distances up to 5 kilometers less than the initially approved distance.

B. One-Time Setup Cost

- The purpose of the One-Time Setup Cost is to help ease the initial financial burden associated with the transfer.
- Every transfer eligible for Relocation Allowance is entitled to receive a lump sum amount, which includes Basic and Dearness Allowance, as a one-time setup cost. The amount will be processed on monthly salary (subject to tax deduction) and the disbursement occurs upon the successful completion of the transfer process.

In such scenarios, when staff members undergo transfers—be it for regular rotations by the company or promotions—returning to their previous (originally joined) branch or location, both the Relocation Allowance and One-Time Setup Cost will not be applicable. However, it is noteworthy that a review may be conducted to consider the One-Time Setup Cost if it relates to the initial rental setup required for the staff members, which will be reviewed case by case and proof verification to support with.

8. Grievance Resolution

If an employee has concerns or grievances regarding their transfer, they are encouraged to discuss them with their HR representative or immediate supervisor. WorldLink is committed to addressing such concerns in a fair and timely manner.

9. Review and Update

WorldLink is dedicated to facilitating employee transfers that benefit both the organization and its employees. This policy serves as a guideline for the fair and consistent management of transfers within the company. This Transfer Policy will be periodically reviewed and updated to ensure its effectiveness and relevance.

Annexure 1: Transfer Clearance

Transfer Clearance is mandatory when moving from one branch/location to another.

Asset Handover Clearance

The Asset Handover clearance process entails the return of all company assets, including laptops and mobiles. The specific procedures for handling the same assets during inter-regional transfers will be determined within the respective Regions.

In line with existing practice, company SIM cards & information will be transferred to the respective Regions and branch as deemed necessary.

Task Handover Clearance

For the Task Handover process, a structured Task Handover Form will be implemented. This form will detail the transfer of responsibilities and tasks, providing clarity to both the transferring and receiving employees.

Task Handover to start ideally as soon as the transfer is confirmed. If there's no one to take over, the HOD/Branch Head will make the needed adjustments, including temporary assignments, task reallocation, or restructuring as necessary after consultation with HRD.

Transfer Clearance Forms & Submission

The entire process should be concluded within the 15-day timeframe, typically after staff receive information about transfer/selection decisions, but no later than two days before the employee's last working day in their current role or location.

If applicable, the employee may need to settle any outstanding financial matters (that need to be settled within the specific branch/Region).

Three handwritten signatures in black ink are visible. The first signature on the left is partially obscured and appears to be 'Raj'. The middle signature is 'Ashutosh'. The signature on the right is 'Meghna'.

OFFICE EQUIPMENT DETAILS

S.N.	Goods/Items	Quantity	Condition	Remarks

ADDITIONAL NOTES:
